Dynamite's Mission to Mars

Believe it or not, it's been almost a century since *Edgar Rice Burroughs* first took readers to Mars. Dynamite Entertainment isn't letting that Martian odyssey fade into literary oblivion, though: instead, they're inviting readers to join them as they follow John Carter on his extraplanetary adventure.

Warlord of Mars #1 kicks off Dynamite's adaptation and expansion of ERB's classic sword-and-planet novel ***A Princess of Mars,*** which debuted in ***All-Story Magazine*** way back in February 1912. While readers may be more familiar with Burroughs' famous jungle lord, Tarzan, its was this tale that first established Burroughs as a premiere storyteller in the adventure fiction and science-fantasy fields. This fall, *Arvid Nelson and Stephen Sadowski* will take readers back to Burroughs' wondrous red planet.

"This is a project that we've been working on for quite a bit," Dynamite president *Nick Barrucci* said. " It's a great follow-up to ***The Complete Dracula, Sherlock Holmes,*** and ***The Complete Alice in Wonderland***. We only undertake one of these classic retellings when we can bring something new to the table and with Warlord of Mars I believe our approach will make these characters live again.

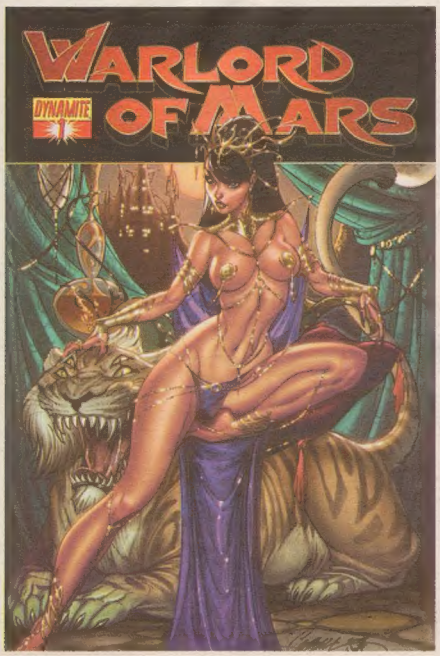
"We plan to capture all the grit and action of the original, while expanding the story with brand-new elements, exploring the back story and earlier events of this classic tale!"

Warlord of Mars has been in the works for quite a while. "The project went into development a few years ago," Barrucci said. "These types of undertakings start internally and then we find the right creative team. We were very fortunate to be able to get *Arvid Nelson* to head up the series."

"The Dynamite guys approached me and asked if I wanted to write it," Nelson said. "Since I'm not completely insane, I said 'yes!' I think it was because of my work in similar genres —with ***Kull, Thulsa Doom,*** and ***Red Sonja***—

that they had confidence in me."

Surprisingly, Nelson wasn't a fan of Burroughs' work prior to landing the assignment. "Honestly—and I'm not proud of this—I'd never read *Edgar Rice Burroughs* before Dynamite tapped me," Nelson said. "I guess I was afraid because the novels are so old; I thought they'd be stuffy and hard to read. Of course, I was *completely* wrong! The stories are absolutely wonderful. If they're dated—and I don't think they are—it only adds to their charm...



"Having read these stories recently and for the first time, they really spoke to me. They're everything I love about operatic science fiction that I only see very rarely from Hollywood these days. Special-effects driven fads come and go, but good storytelling is timeless.

Dynamite has described ***Warlord of Mars*** as "an enhancement of ERB's ***A Princess of Mars.*** What makes it more than a straight-ahead adaptation? "I promise you, none of us are so arrogant to think we could improve the originals!" Nelson said. "We just want to expose them to a new audience. I'm writing a new, two-issue prelude for the series, one I hope Burroughs would be proud of; it won't affect the rest of the story.

"We're trying to stay as true to the spirit of the originals as possible. The novels are told as the 'memoirs' of John Carter, the main character, and the comics will be told the same way. I think Mars is going to be something really special. We're doing this adaptation the right way, and I'm so excited for people to read it!"

"The only thing we'll be changing is the overall look of Mars. For instance, most depictions I've seen of the Martian airships have them as clanky floating submarines. I think we can do better than that. Burroughs was actually very sparse with his descriptions, so we have a lot of room to innovate without being heretical. But we're not holding anything back! Doing our adaptation with all the epic grandeur of the originals will, I believe, be the key to our success."

Burroughs' protagonist, John Carter, was a fascinating hero--a gentleman soldier, an expert swordsman, and a man very much aware of his own skills. How closely will Nelson stay to ERB's take on John Carter? "Like white on rice. I believe Carter is the primary inspiration for Superman, Flash Gordon... you name it. If it ain't broke, don't fix it. Carter is a little bit of a doofus, too, and that's one of the things I love about him."

Dynamite is complementing ***Warlord of Mars'*** creative team with an array of top-name cover talent. "*Alex Ross* created a great cover," Barrucci said. "*Joe Jusko* did a cover that I think is hands down one of the best covers he has ever painted; I'm biased but I love it. *J. Scott Campbell*, as always , has done great covers for the project. And *Lucio Parrillo* is doing a knock-out job for us. We're fortunate, they're 'dynamite' covers that have inspired the artists working on the ***Warlord of Mars'*** interiors.

How long will the adaptation of ***A Princess of Mars*** run? "My plan is to do it in nine or ten issues," Nelson said. "I just don't think I can do the story justice in less. Nicky and *Joe [Rybandt]* at Dynamite deserve a huge amount of credit for letting me go ahead with this—normally a publisher likes to wrap something up sooner, to feel out interest before committing to more. But they love the material just as much as I do, so they're really putting it all on the line for Mars."

Burroughs' work was very much sword and planet fantasy rather than realistic science fiction; does it influence the way Nelson develops his story? "There are definitely considerations. An *Arthur C. Clarke* story in which the characters don't use their advanced knowledge of subatomic particle physics is a bad *Arthur C. Clarke* story. A John Carter of Mars story in which John Carter doesn't kill heaps of evil Martians against all odds is a bad John Carter story."

Is Nelson a fan of the whole sword-and-planet genre? "I'm absolutely *nuts* about space opera, and I'm excited for our adaptation of ***Warlord of Mars*** to hit the shelves. I hope we can contribute to a renewed interest in the original and most enduring epic of American pulp science fiction."

This is one of almost three dozen *Edgar Rice Burroughs* works that have fallen into the public domain; will Dynamite follow ***Warlord of Mars*** with adaptations of other Burroughs material at some point? "We're totally focused on ***Warlord of Mars*** for now," Barrucci said, but he wouldn't rule out other Burroughs adaptations if the series proves sufficiently popular.

And to enhance that popularity, Dynamite has plans to make it easy for all readers to pay a visit to the Red Planet. "To allow the series to be accessible to fans old and new, we are offering the first issue at the introductory price of $1.00 for the full *entire* 32 page comic," Barrucci said.

Warlord of Mars #1, a $1 comic by *Arvid Nelson & Stephen Sadowski* with covers by *Alex Ross, J. Scott Campbell, Joe Jusko, & Lucio Parrillo,* is scheduled for late October release.
